# NATURAL PLAYSPACES FOR CHILDREN

## Vacation Project at Julita: Playing outdoors

### Theme/Place:

Outdoor play - São Paulo / SP

### Authors:

Regiany Maciel Pereira, Carolina Sirino da Silva e Levy de Oliveira Santos

### Context and objective:

Carried out by Monitors in Sport, we aim to integrate children, adolescents and young people through games; encouraging their protagonism and the practice of values for critical education

### Methodology:

The event has taken place since 2014, during school vacations - July and December. There are 2 weeks of plural activities, contemplating the age group from 4 to 15, through spontaneous sportive, recreational and cultural and environmental activities

### Results:

The experience enables the expansion of both conceptual and practical repertoire for young proposers, which corroborates with their education and protagonism as well as their life project; positively impacting around 350 children and adolescents every day, using the games as a pedagogical tool
