Laila que Baila - open doors to Life

Theme/Place:

Outdoor play - Alto Paraíso de Goiás / Goiás

Authors:

Carolina Lemos Coimbra and Tchella Maso

Context and objective:

Laila que Baila - Mothers and Fathers Network for Peace has been active for 7 years in Chapada dos Veadeiros (GO), supporting adults to make the transition from the Field of Fear to the Field of Trust and Love, and anchoring spaces of self-direction and natural learning for children.

Methodology:

Our main principle is based on a deep trust in life and in the great forces of the Universe. We keep the doors open, the children can choose to go out, socialize with people, and walk in the city streets, in the square, in the waterfall, natural pool, or thermal water.

Results:

Joyful children with autonomy, freedom, and responsibility who are accompanied by adults who work in partnership. The house is just a meeting point, a safe and relaxed space. Through the experience of a space of trust, love, and respect, one can get to know Life and live with the Nature that we all are.
