NATURAL PLAYSPACES FOR CHILDREN

Reinventing the School Space Program

Theme/Place:

Impact based on evidence - Joinville / Santa Catarina

Authors:

Marlene Terezinha Zimmer, Francoyse Huguen Mendes, Cleberson de Lima Mendes

Context and objective:

Re-signifying the physical spaces of school units in order to enhance welcoming, safety, well-being, and diversify the possibilities of learning and integration.

Methodology:

Projects developed through training sessions, evaluation of the school unit and an action plan to re-signify the spaces as an extension of the classroom, considering the perspective of Sustainable Educating Spaces, student protagonism and partnership with the community.

Results:

Became a Public Policy, inserted into the Municipal Educational Plan, law 8043 of 02/09/2015, received the Innovation Award in School Management 2015/INEP, constituted the Continuing Educational Center for Education Professionals in 2018, resulted in the publication of an E-book, and the Documentary 1,2,3 Playing.
